COVID-19 VIRUS GUIDELINES

The American Academy of Pediatrics (AAP) has recommended that everyone over 5 years of age without contraindications should receive the COVID-19 vaccine. Phoebe Needles Center, Inc. **IS NOT** excluding campers or staff who have not received the COVID-19 vaccine.

The recommendation of the AAP is that all individuals age 2 and older wear a well-fitting face mask when in a public setting. The Centers for Disease Control (CDC) recommends that all unvaccinated individuals age 2 and older wear a face mask when in an indoor public setting, and that vaccinated individuals wear a face mask when in a high- or substantial-risk indoor public setting. Due to the nature of summer camp activities, and the fact that the majority of activities will be outside, Phoebe Needles Center, Inc. **IS NOT** requiring campers to wear masks. The wearing of masks is optional at the parents'/guardians' discretion. This policy is subject to change as updated information becomes available.

FOR OFFICE USE ONLY (to be completed by medical screener, screener should initial)
